GOODS SHIPPED TO NEWPORT NEWS TURN UP HERE.

Police Get a Tip on Doings in a Store Leased for Two Weeks and Lock Up Feistein Brothers to Awalt Developments -Unpaid Shipper Heard of Failure.

From a source which he refused to reveal Inspector McLaughlin received information vesterday to the effect that a lot of merchandise had been moved into a vacant store at 86 Willett street by two men who were endeavoring to dispose of it in bulk. McLaughlin sent Detectives Cassasa and McKenna to investigate the matter.

The detectives found the store on the ground floor of a tenement house. The windows were soaped so that the interior could not be seen from the street. Going inside the detectives found the place littered with packing cases and a large quantity of general merchandise, including dry goods, clothing, boots and shoes, umbrellas, collars and cuffs.

A man in the store who, according to the detectives, gave his name as Lewis, told them, they say, that he owned the goods, having purchased them from a Mr. Loop at an auction sale somewhere in Baltimore street, Baltimore, Md., about six weeks ago. During the talk a second man entered the store and asked what they wanted. "Who are you?" the detectives asked.

"My name is Fell and I'm the proprietor here," he answered, and he went on to say that the goods belonged to a man named I. J. Rapant of Smithfield, Va., a place about twelve miles from Newport News, and that Rapant had sent Fell here to sell

Both men were taken to Police Headquarters, where they said they were brothers. When asked to explain the difference in names they said the detectives had made a mistake. Both were named Fell, they said, the first one being Louis Fell and the other Max Fell. They claimed to be reputable business men of Baltimore, where, they said, they lived at 262 North Exeter street. They and their father, they said, had been in business there for many years.

Inspector McLaughlin got a Baltimore directory and asked the men to find their names in it. Then they said their father's name was Felstein. In view of these contradictory statements Inspector McLaughlin

name was relatem. In view of these contradictory statements Inspector McLaughlin decided to hold them pending investigation and they were locked up as suspicious persons. They were recorded as Max Fell, a tailor, 31 years old, and Louis Fell, also a tailor, age 28.

Going back to the store the detectives found the lid of one of the packing cases marked "M. Felstein, 302 Washington avenue, Newport News." The case contained overalls and corduroy clothing hearing the tags of Sweet, Orr & Co. of 817 Broadway, this city. The detectives communicated with the firm and learned that Sweet, Orr & Co. had shipped a case on May 24 containing \$200 worth of goods to Felstein. Soon afterward, according to the detectives, the firm heard something about the consignee which made them regret their action and they requested the Old Dominion Line, by which the goods were shipped, not to deliver them, but to return them at the firm's expense. The to return them at the firm's expense.

to return them at the firm's expense. The consignment, however, had already been delivered. When the bill fell due, so the police say, the firm engaged a lawyer to collect it, but were notified that the consignee had failed.

Sweet, Orr & Co. sent a Mr. Clark of the firm with the detectives to the Willet street store where, the detectives said, he declared that the contents of the packing case seemed to be the firm's consignment to Felstein intact. Mr. Clark was unable to tell the police last night whether or not the firm had ever been paid for the goods, but said he would let them know this morning.

Other goods and cases bore the tags of many different firms, among which were the following:

H. C. Marchant Manufacturing Company Charlottesville, Va.; Electric Rubber Com-pany, Baltimere: Linden Mills, Lawrence Manufacturing Company, Safe Investment Company, Fidelity Shoe Company, Good Clothing Company, Baltimore; Andes Bros., clothing, Baltimore; Franklin Overall and Pantaloon Company, Baltimore, and S. Lewis shoes Saratoga Then there were collars of the Lion and

Ivory brands, Yale and Eagle suspenders, International, Champion and Quality shirts and shops from Eichengreen & Co., 113 West Baltimore street, Baltimore.

The police estimate the total value of the roads at about \$5,000. The store was rented on Monday for two weeks. From the number of business cards found in the place the police believe that the prisoners re negotiating with jobbers for the sale

On the prisoners were found a receipt made out to Mr. Fell for rent for the store and a bundle of storage warehouse rereints which showed, the police said, that things stored in April, May, June and July had been removed from storage for the most part on October 15. The bills were of the United Warehouses Company, 48 Reade street: Henry I. Stetler's storage ware-house, 525 Washington street, and the Chesapeake Storage Company, 150 East Fayette street, Baltimore. Most of the bills were street, Baltimore. Most of the bills were from Stetler. The bills were made out to P. Korbin, C. Piatn and H. Bull.

SILVEIRA WAS AT CURACOA. Carmelina, on Which He Left Havana, Was

Headed for Venezuela. Manuel Silveira, the Havana banker who is supposed to have decamped on the steamship Carmelina from Cuba and taken with him a million dollars or more of the money of the banking house of Ceballos & Co. of this city, is known to have been aboard the Carmelina at Curaçoa on Sunday, October 7, five days after the Carmelina cleared from

Havana "for New York." The information was brought here yesterday afternoon on the Red D Line steamship Zulia, which sailed from Curaçoa on

Monday, October 8. Capt. Bennett of the Zulia said that he had seen the Carmelina enter the barbor on Sunday and had heard that she came there for coal. At the time he had not heard that Silveira was a fugitive and he paid little attention to the arrival of the Carmelina. He was not even certain whether she left the harbor the same afternoon or the next morning. He had heard that she
was to touch at Porto Cabello, Venezuela,
for which port she had some cattle.
H. B. Chase, a representative of the Com-

mercial Lumber Company of 68 Broad street and a passenger on the Zulia, said that the names of Silveira, his wife and two children names of Silveira, his wife and two children were on the passenger list of the Carmelina. He had seen a copy of the list in the office of Revas, Fershon & Co., who are agents for the Carmelina as well as for the Red D Line. The four passengers were booked for New York via Curaçoa, said Mr. Chase, and when he saw that he had wondered why any one sailing from Havana had taken such a roundabout course to get to New such a roundabout course to get to New York. He was inclined to believe that they York. He was inclined to believe that they had gone somewhere else. The Prins Friedrik Hendrik is due here about Saturday or Sunday.

Mr. Chase was quite sure that the Car-Mr. Chase was quite sure that the Carmelina had sailed from Curaçoa again on the afternoon of Sunday, October 7.

No one on board the Zulia understood the presence of the Silveiras on the little island until yesterday afternoon, when a reporter of The Sun went on hoard the Zulia at Quarantine and asked the captain if he had seen anything of the Carmelina.

Capt. Bennett said the Carmelina was light when she came into Curaçoa, though she had her cattle pens on deck. He had

BRYAN GETS DATES MIXED.

He Disappoints One Large Wisconsin Audience.

CHICAGO, Oct. 17.-William Jennings Bryan spent a few minutes in Chicago today that were disastrous to plans laid for big receptions to him in Kenosha and Milwaukee. He got his schedules mixed up so that he took a train for Janesville, Wis., instead of going to Kenosha, where 2,000 waited in front of the opera house for him, and then to Milwaukee, where he was billed for a big meeting. Mr. Bryan completely missed a delegation of Wisconsin Democrats who had come to Chicago to meet him, and they returned to Kenosha with the report that Bryanthad been lost.

National Committeeman T. E. Ryan of Wisconsin remained in the city and later in the day saw Congressman Rainey, with whom Mr. Bryan came north from his tour in southern Illinois. Mr. Rainey is in charge of the Western bureau of the Democratic Congressional committee.

The mixup in the Wisconsin schedule, Mr. Rainey declared, was due to a mistake made at Lincoln, Neb., where Mr. Bryan's tinerary was mapped out, and apparently the Kenosha and Milwaukee dates were overlooked. Mr. Bryan spoke this afternoon in Madison, Wis., and this evening spoke in Watertown. Then he went to South Dakota.

MILWAUKEE, Wis., Oct. 17.—William Jen-nings Bryan has indorsed Senator La Follette.
"Nine-tenths of the Republicans in Wisconsin are Democrats and don't know it," he said. "If I could bring them up here one by one and question them I could convince them by their own statements that they are with us."

He praised Roosevelt for his successful efforts to restore page to the nations of

'He said that the President in passing the rate bill didn't put it in charge of Senator La Follette, who was the best man in the Senate to get a good rate bill, but in the hands of Senator Spooner, the recreest man in the Senate, and then he had so turn to Tillman of South Carolina. He said the President was "lonesome" at Washington and urged that Democrats be sent there to help him in passing reform measures.

DEAD AT BOTTOM OF THE SEA.

HOPE OF SAVING THE LUTIN'S CREW IS ABANDONED.

Divers Find Probable Location of French Submarine Boat, but Water Is Too Deep for Them to Reach Her-Efforts to Be Benewed When Weather Clears.

Special Cable Despatch to THE SUN.

BIZERTA, Oct. 17 .- Hope of saving the fourteen men on board the submarine boat Lutin, which went down off this port yesterday on her submersion trials and did not come up again, was abandoned to-day when the divers, owing to the bad weather conditions and the great depth of water, gave up their attempts to reach the boat. It is not even certain that the object they saw dimly at the bottom of the sea is the Lutin. The work, however, will be resumed

English grapplers, with their apparatus, have arrived from Malta. The object which is supposed to be the Lutin is forty metres down, and only one diver has been able to

go down more than half that distance. Paris, Oct. 17.—Among the callers at the Ministry of Marine this afternoon was a sister of one of the crew of the sunken submarine boat Lutin. She to-day received a letter from her brother, dated October 10, n which he said

You may well ask yourself if I am dead. No; indeed, not yet, but it will perhaps happen one of these days that we shall all remain at the bottom. However, it has not come yet, and I hope to be home at the end

The officials at the Ministry did not have the temerity to tell her that all hope of escue had been abandoned.

OUR SUBMARINES SAFER.

ecident Like That in France Believed to Be Impossible Here. WASHINGTON, Oct. 17 .- In view of the

forthcoming tests of submarine boats for the United States Navy, which are to occur in Narragansett Bay, there is much interest felt here concerning the accident to the French submarine Lutin. The regulations for the tests, which have just been approved by the Secretary of the Navy, are calculated to demonstrate that a similar accident could not occur to an American submarine. It is pointed out that if the French boat had the same reserve of compressed air as is carried in the American submarines there would be no danger of loss of life by reason of lack of air.

The longest test which was ever applied to any of the submarines of the American navy was fifteen hours, and during that time the reserve supplies were not drawn upon. It is contended that an accident such as that which occurred to the Lutin would be impossible in the submarines now building for the United States Navy. They are fitted with eme ency devices which can be set at any particular depth desired and which absolutely prevent the vessels from exceeding that depth unless the commanding officer so desires.

The control of the American boats, however, is so certain that this device is only installed to cover instances of unforeseen emergency rendering the crew insensible or incapable of operating the boat. The apparatus is an integral part of the boat's construction and can be tested every day without in any way affecting the qualities of the boat. Recently one of the United States submarines was raised by her crew from a depth of thirty fathoms, at which depth the Lutin is said to be immersed.

All submarines when submerged carry certain amount of water ballast. If this ballast is ejected, either by means of compressed air or pumps, a lifting force is created which must inevitably raise them to the surface unless there is a counter force. The French submarines of the Lutin type carry much less ballast of this sort than those of the American navy, and in the American boats this ballast may be ejected at a depth of 250 feet. Moreover the tanks containing this ballast are of such strength that they are able to resist the crushing pressure at great depth.

As illustrating the superiority of the type of boat now in the American navy it is pointed out that although hundreds of dives have been made—one when President Roosevelt was on board-there has never been an accident resulting in a fatality. Neither has any accident ever come to any one of the twenty-five or more submarines of American type now in use in the navies of England, Japan, Russia and Holland.

WOMAN CHEFS POPULAR. One Has Been Appointed by the Mariborough Club of London.

Special Cable Despaich to THE SUN. LONDON, Oct. 17.-Male chefs are aghast at the appointment of a woman chef at the Marlborough Club, one of the most exclusive in London. WHO, AFTER VAIL'S DEATH, SEEKS \$3,000 A YEAR FOR 11 YEARS.

Abe Hummel's Client Must Tell Whether Alleged Agreement to Provide for Her Was Oral or Written and Made Directly or Through Anybody's Intervention.

A suit very similar in character to the many brought by women against the estate of Charles Broadway Rouss, the blind merchant, is pending in the Supreme Court against the estate of Theodore Freling! huysen Vail of Sullivan, Vail & Co., the woollen importing firm, who died on July 18.

The plaintiff calls herself Margaret Means Carswell and her attorneys are Howe & Hummel. She is suing for \$33,315 on an alleged contract identical in many respects with the alleged contracts put forward in the suits against the Rouss estate, but going further. Howe & Hummel were counsel in more than one of the suits against the Rouss executors.

Special Cable Despatch to THE SUN.
